

## INTERNET FACILITY

Dhaanish Ahmed Institute of Technology has dedicated Internet Leased line of 30 Mbps, connected to hundreds of terminals throughout the Campus. Students and faculty members are free to access internet and wi-fi hot-spots. This helps the students to prepare papers on the latest technologies to be presented in various conferences, symposiums and seminars. The students can also access internet to prepare for their placement drives.

Interested students who are willing to go abroad for further studies can take up tests such as GRE and TOEFL, take up online mock test and also browse through websites of various universities and centres of higher education around the world. The access speed enables the Students and Staff to download and upload files at a fast rate.

The college also provides separate evening slots for the Hostel students (Boys & Girls) to use internet for their Education purpose, to check their Emails and other social media access.
